

THE CLIENT CONSULTATION

A **CLIENT CONSULTATION** GIVES YOU THE OPPORTUNITY TO:

1. Review a hair texture
2. To develop an understanding of their history in terms of recent chemical services
3. To understand the challenges your client faces in terms of managing the hair
4. To understand your client's goals

CLIENT FORM

To be completed by the salon client

Thank you for availing **Diana services**.

Please read the release form carefully and **sign the form at the bottom if you acknowledge it**. The customer indicated above is in lawful age and applicable to receive the services of the salon. By signing this form, the customer **agrees that he/she accepts all information, suggestions, and recommended activities or treatments provided by the hairstylist and the salon**. The customer hereby releases this salon and its employees from any liability, claims, damages, and demands that may result in injuries and loss.

- **Nanoplasty** – nutrient infused smoothing and straightening treatment. Nanoplasty is an innovative and luxurious treatment that restores the hair structure and permanently straightens any hair type.
Results: 10-12 months
- **Golden Pro Protein Straightening** – hair smoothing and nourishing deep treatment. Carefully selected ingredients transform even the most difficult hair into stronger, straighter, repaired hair that's easy to brush and manage.
Results: 4-6 months
- **Hair Botox** – the nutrient-based system provides intensive hydration, repairs damaged and broken hair fibers, and reduces frizziness. Hair Botox does not straighten hair or change its natural curl pattern
Results: 2-3 months
- **Lamination** - InstaGlam Lamination coats the hair shaft and seals in moisture. This helps to protect the hair from damage and makes it more manageable. Lamination can also help to make the hair appear shinier and smoother. This is a perfect pre-party and smoothing treatment.
Results: 4 weeks
- **Express treatment (ampoule)** - an effective salon treatment in **15 minutes!** The express conditioning treatment nourishes and moisturises the hair and prolongs the effect of Diana treatments.

■ **Aftercare & tips**

First wash:

- **Hair Botox**

48 hours after the hair treatment. We highly recommend using our Hair Botox HomeCare line after treatment.

- **Golden Professional Protein**

48 hours if your hair is naturally very curly (Afro texture hair).

Wash on the same day if your hair is naturally straight/ wavy/ light curly.

We highly recommend using our Golden Pro HomeCare line after treatment.

- **Nanoplasty**

Wash the hair right after the treatment.

Nano Care line are delicate and formulated to prolong the treatment's effect.

- The treatment is **heat activated** so you will still need to blow dry your hair after you wash it
- The results last for a minimum of [see above], providing you use the suggested Diana aftercare.

Why? Because these products are **sodium chloride free** and **sulphate free** and **have been developed to maximise the longevity of the treatment**. They also contain our **special vegan formula to give you the longest-lasting results**.

- Once you have washed your hair for the 1st time you do not need to wear it straight. You can style it so it has more volume (bouncy curls for example are still possible after the treatment)
- The treatment may cause some colour lift due to the pH level so it's advisable to boom your colour service after the Diana treatment
